The Complete Early Years Assessment System

Early Excellence
Assessment Tracker 2017

For Schools

New 2017 Features

'The Learning Journal is incredible. Upload is simple and quick which is great for busy teachers!'

Kim Warren
Reception Teacher,
Oxford Primary School

We are excited to announce new features and upgrades to the EEExAT system. These will include:

Assessment, Tracking & Reporting

- A (live) cumulative scoring system, still using the age-related tracker, capturing a true baseline, an end of year score and a termly progress score.
- New reports and filters added giving you more control and flexibility for reporting attainment and progress. Data which can be exported, so you can create and print your own bespoke reports in an instant.
- AoLs scored and reported separately from Characteristics and Well-being and Involvement.
- Improvements for YR – new assessment statements to capture a more accurate pattern of progress, new film clips and new reports to plot progress towards GLD.
- A new Pupil Profile which draws the live data for each child into a range of reports in one place.

The Technical Bit

- EEExAT will be fully accessible and usable from any mobile or tablet device and you will be able to upload and tag evidence from the brand-new web app.
- An accessible parent portal to help build your home/school links whilst sharing photos, videos and observations.
- New colours, layout and design features to make the whole site quicker and easier to use.

Evidence

- A greater range of options for uploading and editing – start with a photo then add text, start with text then add photo, upload multiple images from your mobile or tablet (using the app).
- Improved navigation and filter options to allow you to view, sort and select evidence more efficiently.

What is EExAT?

EExAT is the online assessment system developed by Early Excellence. It provides a much needed solution to assessment and accountability, offering a forward thinking, highly principled and extremely practical solution to support good assessment practice in the early years.

Benefits

- Accurate practitioner-led assessment across all AoLs, CoELs and levels of Well-being and Involvement.
- Simple tracking of pupil progress using age related, summative data, plus non-age related tracking to capture attainment at the start and end of each year and the progress made each term.
- In-school moderation and training using high quality exemplification materials.
- Observations, images, video clips tagged to children's trackers to document progress between assessments.
- A comprehensive range of reports to show attainment and progress of cohorts, pupils and specific groups.
- Parent Portal for online exchanges including stunning, easy to create Learning Journals.
- Integrated system for moderation and reporting of data across schools working together.

Within EExAT you will find everything you need in one place – one complete solution for assessing, tracking, documenting, moderating and reporting children's learning Birth-5yrs.

EExAT has been designed to lead good practice offering a solution that fits with the busy life of a school – at all levels.

- Practitioners are enabled to assess, track and document children's learning, producing Learning Journals that encourage parental engagement.
- Early Years Leaders are supported in developing good assessment practice, using the assessment system flexibly for training and moderation purposes.
- Senior Leaders are informed of progress over time with a wealth of summative data and reporting functions.

And what's more, for schools working together, the system can be integrated to enable the 'lead' organisation, to moderate judgments and generate reports drawn from the data of all of the schools within the defined group – such as a Local Authority or Multi-Academy Trust.

What Does EEExAT Include? Module 1

Module 1: Tracking & Reporting Progress

This module provides a Birth to end of EYFS summative assessment tracker with up to four assessment points per year. It gives focus to children's Well-being and Involvement and uses a series of assessment statements based on the:

- EYFS Characteristics of Effective Learning.
- EYFS Prime Areas of Learning.
- EYFS Specific Areas of Learning.

In this module you use your knowledge of the child to record summative judgements. It is quick and easy to use and generates an age related outcome as well as a non age related score. The information from each child's tracker automatically populates the Reports section – a comprehensive and flexible system enabling you to report on both attainment and progress at child and cohort level, with a further option to apply a range of filters for more detailed data analysis.

EEExAT is unique in that it tracks development and learning against age related statements using a yes/not yet approach, rather than best fit, so that judgements are precise and data is consistent. What's more, statements are supported by over 400 film clips of babies, toddlers and young children, including children with SEND. These act as an in-built moderation tool to build practitioner knowledge and secure accurate, consistent judgements, and are an invaluable resource for CPD.

Features

- Demonstrates attainment and progress in relation to their age, across all areas of learning.
- Generates a score enabling you to capture an on-entry baseline when they start, and generates a cumulative score at the end of each term.
- Assessment based on practitioner knowledge of the child – no tasks, tests or expectations to record additional 'evidence'.
- Over 400 best practice film clips of EYFS children, including children with specific needs, each demonstrating what is typical for their age.
- Comprehensive reporting system which creates live reports at pupil and cohort levels.

What Does EExAT Include? Module 2 & 3

EExAT Learning Journal

Module 2: Documenting & Moderating Learning

This module provides a comprehensive system for documenting and sharing children's learning and development using any mobile or tablet device. EExAT supports a smooth and efficient documentation process; written observations, notes, images and video clips can be uploaded to the EExAT system.

A web app enables one click access so that learning can be captured in the moment, wherever and whenever it occurs.

This enables you to create evidence banks and:

- Tag evidence to children's trackers to demonstrate progress between assessments.
- Filter for particular evidence e.g. evidence linked to PSED, a particular child etc.
- Submit evidence for in-school moderation.
- Select images, text and video clips to create individualised Learning Journals.
- This module also includes a Parent Portal and Parent App to enable you to engage with parents/carers by exchanging significant learning and moments by sharing images, observations and comments – all online and in the moment.

Module 3: Group Moderation & Data Reporting

A further extension to EExAT provides the functionality for data collection and analysis across schools. This enables linked schools – such as those within an academy trust or nursery chain – to share information.

The system provides the 'host' school organisation with:

- Individual and aggregated school data and reports.
- Cross school moderation files to support consistency and analysis of judgements.

'Thank you so much. I'm so relieved that Early Excellence has taken on the challenge to reform the whole assessment system in early years and refocus on what matters.'

Jane King

Reception Teacher,
Horsmonden Primary
School, Kent

What Does EExAT Cost?

To support different aspects of assessing, accounting for and celebrating children's progress, EExAT has been divided into 3 modules. Each module is priced based on the size of the school and is renewed annually.

Option A: Module 1 only

Includes: Module 1

Assessment Tracker, including a half day training session.

£275 – Small School*

£375 – Medium School*

£475 – Large School*

£575 – X Large School*

Option B: Module 1+2

Includes: Module 1

Assessment Tracker, including a half day training session.

+

Module 2

Documentation and Moderation.

£450 – Small School*

£650 – Medium School*

£850 – Large School*

£1,050 – X Large School*

Option C: Module 1+2+3

Includes: Module 1

Assessment Tracker, including a half day training session.

+

Module 2

Documentation and Moderation.

+

Module 3

Group Moderation and Data Reporting.

£525 – Small School*

£725 – Medium School*

£925 – Large School*

£1,125 – X Large School*

*All prices exclude VAT
Small: 1-35 EYFS Pupils
Medium: 36-95 EYFS Pupils
Large: 96-180 EYFS Pupils
X Large: 181+ EYFS Pupils

How to Sign-up & Start Using EExAT?

To use EExAT as your fully integrated online assessment system, you will need to sign-up, select your preferred modules and book to attend training. This process is completed online where you will find step by step guidance on how to complete your registration.

Step 1: Go Online at www.eexat.com

Simply click
'Register' to start
the process.

Step 2: Select Your Subscription Level

Choose your
subscription level
and enter your
school's details.

Step 3: Book Training

Select your
preferred training
date and venue,
and reserve your
place at www.earlyexcellence.com/eexat

Early Excellence is an established national leader of pedagogy, provision and practice specialising in young children's education. Founded in 1998 by Liz Marsden, a Headteacher and Early Years Adviser, the organisation champions the development of inspirational learning and teaching and offers expert advice, bespoke support and specialised training to schools and settings across the UK.

As an organisation passionate about child-centred pedagogy, Early Excellence helps to secure quality practice within the ever changing landscape of education policy. With a sharp focus on the leadership of teaching and learning in the EYFS and KS1, Early Excellence is a vital resource for leaders and practitioners.
