

# Choose EExAT

## The Complete Birth-5yrs Assessment System

Early Excellence  
Assessment Tracker 2017

For Settings

## What is EExAT?

**EExAT is the online assessment system developed by Early Excellence. It provides a much needed solution to assessment, offering a forward thinking, highly principled and extremely practical solution to support good assessment practice in the early years.**

Within EExAT you will find everything you need in one place – one complete solution for assessing, tracking, documenting, moderating and reporting children’s learning Birth–5yrs.

EExAT has been designed to lead good practice offering a solution that fits with the busy life of a setting – at all levels.

### Benefits

- Accurate practitioner-led assessment across all areas of learning, characteristics of learning and levels of Well-being and Involvement.
  - Clear assessment statements drawn from Child Development which track progress against 6 monthly age-related milestones.
  - In-setting moderation and training using high quality exemplification materials.
  - Observations, images, video clips tagged to children’s trackers to document progress between assessments.
  - A comprehensive range of reports to show attainment and progress of individual children and specific groups.
  - Parent Portal for online exchanges including stunning, easy to create Learning Journals.
- Practitioners are enabled to assess, track and document children’s learning, producing Learning Journals that encourage parental engagement.
  - Leaders are supported in developing good assessment practice, using the assessment system flexibly for training and moderation purposes.
  - Managers and Senior Leaders are informed of progress over time with a wealth of summative data and reporting functions.

And what’s more, for settings working together, the system can be integrated to enable the ‘lead’ organisation to moderate judgments and generate reports drawn from the data of all of the settings within the defined group – such as a nursery chain or Local Authority.

'We love using the EExAT tracker and have found it very simple and straightforward to complete. My team feel that using EExAT has definitely saved them time as the trackers clearly show where children are in their developmental journey.'

**Julia Black**

Nursery Manager,  
Jack & Jill Nursery, Surrey

'We decided to move to EExAT as we needed a reporting system for data analysis. EExAT has delivered this in spades. As a bonus, we have found the front end system more intuitive and child-centred than competing products.'

**Dennis Czech**

Deputy Head,  
McMillan Early Childhood Centre

## EExAT Features

- Birth-5yrs **development** tracker
- Assessment across all **Areas of Learning** and **Characteristics of Effective Learning**
- Capture starting points **on-entry** and monitors children's **progress** in 6-monthly milestones
- **Quick and easy** to complete, with instant detailed reports
- Over **400 film clips** of EYFS children, each demonstrating what is typical for each 6 monthly milestone
- In-setting **moderation function** to support consistency when making judgments
- Ability to create stunning **Learning Journals** which can be shared with parents
- Invaluable, accurate and **detailed reports** to support leadership and management
- On going monitoring of children's levels of **Well-being and Involvement**

## What Does EEExAT Include? Module 1

### Module 1: Tracking & Reporting Progress

This module provides a Birth to end of EYFS summative assessment tracker with up to four assessment points per year. It gives focus to children's Well-being and Involvement and uses a series of assessment statements based on the:

- EYFS Characteristics of Effective Learning
- EYFS Prime Areas of Learning
- EYFS Specific Areas of Learning

In this module you use your knowledge of the child to record summative judgments. It is quick and easy to use and generates an age related outcome as well as a non age related score. The information from each child's tracker automatically populates the Reports section – a comprehensive and flexible system enabling you to report on both attainment and progress at child and group level.

EEExAT is unique in that it tracks development and learning against age related statements using a yes/not yet approach, rather than best fit, so that judgments are precise and data is consistent. What's more, statements are supported by over 400 film clips of babies, toddlers and young children, including children with SEND. These act as an in-built moderation tool to build practitioner knowledge and secure accurate, consistent judgments, and are an invaluable resource for CPD.

### Features

- Demonstrates attainment and progress in relation to their age, across all areas of learning.
- Generates a score enabling you to capture an on-entry baseline when they start, and generates a cumulative score at the end of each term.
- Assessment based on practitioner knowledge of the child – no tasks, tests or expectations to record additional 'evidence'.
- Over 400 best practice film clips of EYFS children, including children with specific needs, each demonstrating what is typical for their age.
- Comprehensive reporting system which creates live reports at child and group levels.

## What Does EExAT Include? Module 2 & 3

### EExAT Learning Journal

### EExAT Video Exemplification

### Module 2: Documenting & Moderating Learning

This module provides a comprehensive system for documenting and sharing children's learning and development. EExAT supports a smooth and efficient documentation process; written observations, notes, images and video clips can be uploaded to the EExAT system.

A web app enables one click access so that learning can be captured in the moment, wherever and whenever it occurs.

This enables you to create evidence banks and:

- Tag evidence to children's trackers to demonstrate progress between assessments.
- Filter for particular evidence e.g. evidence linked to PSED, a particular child etc.
- Submit evidence for in-setting moderation.
- Select images, text and video clips to create individualised Learning Journals.
- This module also includes a Parent Portal and Parent App to enable you to engage with parents/carers.

### Module 3: Group Moderation & Data Reporting

A further extension to EExAT provides the functionality for data collection and analysis across settings. This enables linked settings – such as those within settings, a nursery chain or Local Authority – to share information.

The system provides the 'host' setting organisation with:

- Individual and aggregated setting data and reports.
- Cross setting moderation files to support consistency and analysis of judgments.

## What Does EExAT Cost?

To support different aspects of assessing, accounting for and celebrating children's progress, EExAT has been divided into 3 modules. Each module is priced based on the number of children in the setting and is renewed annually. Settings have the option to pay annually or in 12 monthly payments.

### Option A: Module 1 only

#### Includes: Module 1

Assessment Tracker, including a half day training session.

£23p/m Small\* (£275p/a)

£32p/m Medium\* (£375p/a)

£40p/m Large\* (£475p/a)

£48p/m XLarge\* (£575p/a)

### Option B: Module 1+2

#### Includes: Module 1

Assessment Tracker, including a half day training session.

+

#### Module 2

Documentation and Moderation.

£38p/m Small\* (£450p/a)

£55p/m Medium\* (£650p/a)

£71p/m Large\* (£850p/a)

£88p/m XLarge\* (£1,050p/a)

### Option C: Module 1+2+3

#### Includes: Module 1

Assessment Tracker, including a half day training session.

+

#### Module 2

Documentation and Moderation.

+

#### Module 3

Group Moderation and Data Reporting.

£44p/m Small\* (£525p/a)

£61p/m Medium\* (£725p/a)

£77p/m Large\* (£925p/a)

£94p/m XLarge\* (£1,125p/a)

\*All prices per month are based on a minimum 12 month subscription and are exclusive of VAT.

Small: 1-35 EYFS Children  
Medium: 36-95 EYFS Children  
Large: 96-180 EYFS Children  
XLarge: 181+ EYFS Children

## How to Sign-up & Start Using EExAT?

To use EExAT as your fully integrated online assessment system, you will need to sign-up, select your preferred modules and book to attend training. This process is completed online where you will find step by step guidance on how to complete your registration.

### Step 1: Go Online at [www.eexat.com](http://www.eexat.com)

Simply click  
'Register' to start  
the process.

### Step 2: Select Your Subscription Level

Choose your  
subscription level  
and enter your  
setting's details.

Print the Direct  
Debit mandate,  
complete in full  
and return to the  
Early Excellence  
postal address  
as detailed.

### Step 3: Book Training

Select your  
preferred training  
date and venue,  
and reserve your  
place at [www.earlyexcellence.com/eexat](http://www.earlyexcellence.com/eexat)

Early Excellence is an established national leader of pedagogy, provision and practice specialising in young children's education. Founded in 1998 by Liz Marsden, a Headteacher and Early Years Adviser, the organisation champions the development of inspirational learning and teaching and offers expert advice, bespoke support and specialised training to schools and settings across the UK.

As an organisation passionate about child-centred pedagogy, Early Excellence helps to secure quality practice within the ever changing landscape of education policy. With a sharp focus on the leadership of teaching and learning in the EYFS and KS1, Early Excellence is a vital resource for leaders and practitioners.
