Developing Young Mathematicians

Online Learning Programme

A Whole Team Approach to Teaching Early Maths in EYFS & KS1

Join this multi-layered online CPD programme and engage in a new way of working with your team. The programme consists of three online learning modules that together will deepen knowledge and enhance teaching – all available for your school to use until end of February 2021.

Introductory Webinar for Leaders

A short overview of the programme and how to use it with your team to maximise impact. Join live in November or choose the recorded option.

Module One: Training Webinars

Three sequential 90 minute training sessions for you and your team to share, either together or individually.

Session 1

Understanding the Learning Journey:
Becoming a Mathematical Thinker

Session 2

Exploring Approaches to Teaching:
Planning for Meaningful Maths

Session 3

Embedding Mathematical Knowledge
Nurturing Mastery, Language & Thinking

Audience

EYFS & KS1 Teams seeking to work together to improve their teaching of maths
