Education Durham Mixed Phase Magic guidance books

Guidance tools to support the creation and development of new mixed age Reception and Year One classes, and Reception and Nursery classes in primary and infant schools.

The new Education Durham guidance books are a supportive resource arising from a research project focusing on developing and strengthening new mixed age provision in Durham schools.

The books reflect the journey of Durham schools in setting up their provision and offer key elements for leaders and practitioners to think about and act upon in relation to organisation, partnership, curriculum, environment and teaching.
